

Page 16: **Depth of Field (DOF)** should be **Degrees of Freedom (DOF)**

Page 32: **DOF** **Depth of Field (DOF)**

Page 73: Section **LoG/zero-crossing** typo in the code

```
def any_neighbor_zero(img, i, j):
    for k in range(-1,2):
        for l in range(-1,2):
            if k == 0 and l == 0: continue # skip the input pixel
            if img[i+k, j+l] == 0:          # in the book it is j+k, it should be j+l
                return True
    return False
```
